To Whom It May Concern:

Google is pleased to inform you that Nicholas Mowery has successfully completed Google Summer of Code 2020, a program which connects students with mentors for 3 months to develop open source software. Each year many students apply to participate with only a portion of them being accepted into the program, and not every student finishes the program successfully.

Nicholas was accepted into the program by, and developed open source software for, The Apache Software Foundation beginning June 1, 2020 and ending on August 24, 2020. Over that period, they passed each of the three evaluations conducted by their mentor.

More information on Nicholas's project can be found at:
<https://summerofcode.withgoogle.com/projects/5054530938470400>

Nicholas worked from home on their project and was not required to visit either Google or The Apache Software Foundation's offices. They received a stipend of 6000 USD for the project. Although Nicholas was not directly employed by Google during Google Summer of Code 2020, the program was administered by Google from our corporate headquarters and Google acted as the host organization for the duration of Nicholas's participation.

You can learn more about the program on our website at g.co/gsoc. Should you require any further information, please do not hesitate to contact our team via email at gsoc-support@google.com.

Best,

Stephanie Taylor
Google Summer of Code Program Lead
